

## 6 Month Internship

## Data/Social Media Intern

REN21, the Renewable Energy Policy Network for the 21<sup>st</sup> Century, is seeking an intern to support its Secretariat in Paris:

### Responsibilities

- The REN21 Renewables Interactive Map is currently being redeveloped, and the REN21 team is looking for an intern to assist in this process and to compile and analyse data for the [REN21 Renewables Interactive Map](#)
- Extract data from existing REN21 reports and activities (Global Status Report, Global Futures Report), research new data in collaboration with the network's partners.
- Provide assistance in updating REN21's website, newsletter and maintaining/further developing internal REN21 IT tools (online questionnaires, peer review tool)
- Support REN21 in its social media activities and track usage statistics
- Provide assistance to the REN21 Secretariat as needed

### Requirements

- Educational background: energy/environment, engineering, urbanism, social science, economics, statistics, or similar
- Strong IT skills and interest, graphic design, web development
- Excellent written and oral English skills; other languages are a valuable asset
- Enjoy working as part of an international team; ability to work independently

To apply, please send a CV and a covering letter outlining your suitability and interest in the position at **the latest by 28 December 2014** to [secretariat@ren21.net](mailto:secretariat@ren21.net).

The position is based in Paris and **will start 16 February 2015**. The successful candidate will work under a 6 months paid internship contract. Please mention **"REN21 Data/Social Media Internship"** in the e-mail header. Only short-listed candidates will be contacted. The successful candidate needs to have a legal right to work in France. The working language of REN21 is English.

### About REN21

REN21 convenes international multi-stakeholder leaders to enable a rapid global transition to renewable energy. REN21 promotes renewable energy to meet the needs of both industrialised and developing countries that are driven by climate change, energy security, development and poverty alleviation. The overarching goal of REN21 is the promotion of policies that will increase the wise use of renewable energy worldwide. In order to achieve this objective, REN21 encourages action in three areas: Policy, Advocacy, and Exchange. For more information on our organisation, visit [www.ren21.net](http://www.ren21.net)
